REQUEST FOR APPROVAL OF DRAWING CHANGES

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

The Examiner is requested to review and approve the changes to Figures 3 through 9, 11, and 12 as marked in red on the attached sheets. Figure 3 is amended to include element symbol "G" for grain and element numbers 10 and 28 for the present roof ventilator and the double-faced corrugated plastic sheet material, respectively. Support for including element symbol "G" can be found, e.g., at column 4, line 57 through column 5, line 2 and Figure 4 of U.S. Patent 4,803,813, incorporated by reference of U.S. Patent 5,094,041 at column 4, lines 7 through 17 of ( "the present patent"). Support for adding element numbers 10 and 28 can be found in Figure 1 and, e.g., at column 4, lines 37 through 56 of the present patent. Figures 5 and 6 have been amended to replace respective element numbers 71 and 73 with 82. Element numbers 71 and 73 are not referenced in the present patent. However, element number 82 denotes the apertures depicted in Figures 5 and 6. Support for substituting element number 82 for 71 and 73 can be found, e.g., at column 6, lines 32 through 41. Figures 7, 8, 9, and 12 are amended to contain element number 64 to denote the top panel. Support for the amendment to Figures 7, 8, 9, and 12 can be found in Figure 3 and, e.g., at column 5, lines 2 through 13 and the lines 45 through 60. Figure 11 has

been amended to include element numbers 64 and to substitute element number 96 for element number 95. Support for adding element number 64 is believed to be the same as cited with respect to Figures 7, 8, 9, and 12, above. The substitution of element number 96 (denoting a side edge bounding recessed area 86) is supported by the paragraph bridging columns 6 and 7. Moreover, element number 95 is not referenced in the present patent. No new matter has been added by these amendments to the Figures.

After approval of these changes, and upon allowance of the application, formal drawings will be submitted.

Respectfully submitted,
